7	Console metal leg fixing bracket	LSD 011	QTY: 2
8	Threaded bar	LSD 012	QTY: 4
9	Wing nut kit	LSD 013	QTY: 4
10	Basin clip set	XX 250	QTY: 4
11	Basin	LB 7220	

Important Information

Preparation

- This product should be installed by a suitably qualified professional.
- A minimum of 3 people is recommended to complete this job.
- Before beginning ensure that all horizontal surfaces are level and vertical surfaces are plumb.
- Ensure the wall and floor have sufficient load bearing capabilities to allow this product to be installed safely and securely.
- Take care when lifting and observe proper safety procedures.
- Wear protective boots and gloves.

Product Care

- Marble is fragile and can easily be damaged during transportation and installation. Take special care when the product is being moved and assembled.
- For your own safety and as to not damage the product:

Always carry **vertically**

Always store **vertically**

- Do not open the crate whilst in the vertical position. Make sure that the crate is laid down **horizontally** before unclipping for personal safety and to prevent damage.

Steps 1-2

Installation Procedure

- 1** Make sure that the wall and deck are square and plumb.

Check and mark the correct placement for the wall brackets, check level with spirit level then drill holes.

Note: Due to the tolerance of the marble, all dimensions are approximate.

- 2** Fix wall brackets to the wall using suitable wall plugs and screws.

We recommend the use of a wall batten.

Important:

Make sure the batten does not obstruct the fitting of any plumbing installation.

Steps 3-4

Installation Procedure

- 3** Prepare a clean and protective surface. Carefully place the countertop face down onto the surface.

Position and fix the basin to the underside of the countertop using suitable mastic.

Ensure the basin is in line with the countertop.

Leave the assembly to set overnight before continuing.

- 4** Secure the basin in place using the clips and screws provided.

Step 5

Installation Procedure

5

- 5** Prepare both legs by locating and screwing the threaded bars into each of the holes on the back of the console legs.

Attach console metal leg fixing brackets and wing nuts, as shown in diagram.

Steps 6-7

Installation Procedure

- 6** Whilst supporting one of the legs, assemble first marble section by slotting the correct end into the corresponding wall bracket. Slot the other end into the corresponding section of the leg. Support the leg until the next stage is completed.

- 7** Carefully tighten the wing nuts as to take the weight of these parts.

Note:

Take care not to over-tighten the wing nuts as this may damage the marble.

Steps 8-9

Installation Procedure

8

- 8** Slot the front marble section into the corresponding section of the first leg.

9

- 9** Secure the front marble section to the first leg making sure that the first two sections are now held in position by the wing nuts.

Steps 10-11

Installation Procedure

10

- 10** Slot the other end of the front marble section into the second leg.

11

- 11** Secure the second leg to the front section.

Steps 12-13

Installation Procedure

12

- 12** Secure the last marble section by slotting the correct end into the remaining wall bracket. Locate the other end into the corresponding second leg.

13

- 13** Check with spirit level and carefully tighten the wing nuts. Make any adjustments that may be necessary.

Steps 14-15

Installation Procedure

14

- 14** Carefully lower the countertop onto the batten and frame and position in place. Check with spirit level.

Note:

For extra strength we would recommend the use of an appropriate adhesive.

15

- 15** Complete installation.

Important:

Any brassware should be attached and plumbed by an experienced plumber.

Aftercare

Cleaning & Maintenance

- Marble is a porous and delicate material.
- Do not use abrasive wipes.
- Avoid abrasive and harsh cleaning agents.
- Never use acid-based products for cleaning.
- Clean with a clean soft damp cloth. Use a mild detergent and warm water.
